

Action Learning Centre

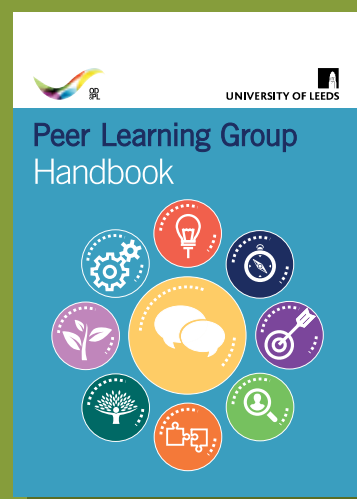

Action Learning Handbook

This handy full colour, A5 booklet is designed to support your Action Learning Set members as they journey through their Action Learning programme. It provides an overview of the key components of the Action Learning cycle, helps them prepare for each session and provides dedicated pages to capture their notes, reflections and action points allowing them to quickly and easily review their progress.

“We liked the idea of the handbook to support group members and provide space for them to log their thoughts and reflections. The Action Learning Centre integrated our leadership excellent behaviour framework into the booklet and branded it to our specification. Using the handbook has enhanced our action learning offer. The feedback has been very positive.”
